## CHAIRE D'INFORMATIQUE ET SCIENCES NUMÉRIQUES

Année académique 2018-2019

Rachid GUERRAOUI

Taking stock of Distributed computing

Vendredi 12 avril 2019  
Amphithéâtre Maurice Halbwachs

## Programme

9h	<p><b>High throughput connectomics</b> N. SHAVIT, <i>MIT &amp; Tel Aviv university</i></p> <p><b>Challenges in population protocols</b> J. BURMAN, <i>université Paris Sud</i></p> <p><b>There is life in 1-consensus</b> Y. AFEK, <i>Tel Aviv university</i></p>
11h	<p><b>Living without consensus</b> M. SHAPIRO, <i>Sorbonne Université &amp; INRIA</i></p> <p><b>Byzantine agreement, an old problem in a new world</b> V. KING, <i>university of Victoria, BC, Canada</i></p> <p><b>Are blockchains a challenge for distributed computing ?</b> M. POTOP-BUTUCARU, <i>Sorbonne Université</i></p>
14h	<p><b>Deus ex machina: A deus-object: approving genuine imitation of itself</b> E. GAFNI, <i>UCLA</i></p> <p><b>25 years of topological perspective on distributed computing</b> S. RAJSBAUM, <i>university of Mexico</i></p> <p><b>Systematic design of adequately consistent distributed systems?</b> A. BOUAJJANI, <i>université Paris-Diderot</i></p>
16h	<p><b>Distributed network computing</b> P. FRAIGNAUD, <i>université Paris-Diderot &amp; CNRS</i></p> <p><b>New models for distributed computing</b> G. TAUBENFELD, <i>Interdisciplinary Center</i></p> <p><b>Thoughts on informatics and distributed computing</b> M. RAYNAL, <i>IRISIA &amp; HK PolyU</i></p>
